*Plant Nutrients  
For Plant Renewal.*

**500ml**

***Plant Renewal:*** is a combination of plant natural nutrients that stimulate healthy growth of plants, assist in root growth and stimulate enlargement of leaves to enhance photosynthesis.

***Plant Renewal*** helps promote the following:

- Root growth and spread.
- Enlargement of leaves for photosynthesis.
- Flowering and fruit settings.
- Healthier and disease-resistant plants.

**Ingredients:** Combination of Wood Vinegar, Chitosan and rooting powder and some plant nutritional ingredients. Mixed together with a homogenization process.

**Storage:** Store at room temperature and keep away from direct sunlight.

**Direction for use:** Shake well before using it on fruit trees, oil palm or coconut trees. Mix 10 ml *Plant Renewal* into 2 litres of water and spray on roots
